Our academic programme

Methodology

Our academic programme is focused around our 3 Pillars of Learning; designed to instil speaking confidence, guarantee practice and provide a completely immersive experience to each and every one of our students.

Teachers are equipped with a full syllabus over a range of different topics which allows both structured learning and the flexibility to create personalised classes.

Speaking confidence

The main focus in each of our classes is on improving verbal communication. Through peer interaction, role play and presentations, our teachers ensure that students speaking skills vastly improve over the duration of the course.

Real-world link

Each topic is connected to a real-world situation that students will experience during their excursions. We believe that students learn better using their language in action.

British culture

UK culture is integrated into each of our classes, encouraging students to learn, not only the language, but also the history, food, music and many other cultural aspects of the British Isles.

3
